Establishment of Legacy Student Program

Assalamu alaikum,

The executive committee of the Board of Directors at College Preparatory School of America in Lombard, Illinois unanimously voted today, the 8th of September, 2019, to formally establish a legacy student program for children of CPSA graduates.

We recognize that for any parent the decision of where to enroll their children is of paramount importance, but it is our hope and sincere belief that for all of our previous graduates there should only be one easy and obvious answer. To our alumni, we reaffirm that CPSA is your school and a place you can forever call home. In recognition of this, we are establishing a formal legacy student program that will apply to all children of CPSA graduates going forward.

Qualifying legacy students will be given priority status when applying for registration to CPSA, including automatically being pushed to the front of any waiting lists for grades/classes at capacity, and their legacy status will weigh in their favor when formal review or approval for pending registrations is required. Additionally, as a gesture of thanks and appreciation, all legacy students will be extended a 5% tuition discount across-the-board, in addition to any other qualifying discounts or waivers.

Masha'Allah, it is incredibly heart-warming to see students that previously walked our walls bringing their own children to register at CPSA. We are extremely proud to have a second generation of CPSA students joining our ranks, and insha'Allah this is the start of a great legacy that will endure for generations to come.

Jazakum Allah khair,

Dr Shahid Ansari
President,
CPSA Board of Directors
